JESSA RUSSO SIGNS NA DYSTOPIAN NOVEL, ARK OF DREAMS

03/19/2015—Ark of Dreams is a NA Dystopian novel from author Jessa Russo. Scheduled to release Summer 2016 from REUTS Publications, Ark of Dreams revolves around character isolation similar to that of Dashner's *The Maze Runner* and will appeal to fans of Condie's *Matched* and Michael Bay's *The Island*. Suited for an 18 - 25 audience, this fast-paced thriller will pull readers into an all-too-real fight for survival against those meant to protect us.

"In a brilliant dystopian story, fashioned loosely from the well-known Biblical account, Ark of Dreams depicts the world-altering chain of events resulting from a modern-day flood. When the government unveils a massive steel ark, only a few chosen for specific genetic traits are allowed on board. Selections are paired off, two-by-two, and forced to cohabitate for a single purpose—re-population. Russo's clear and captivating prose weaves intricacies of mystery, conspiracy, lust, and worst of all—lies."
